

IMPORTANT SECURITY INFORMATION

United Southern Bank is in the process of updating to Transport Layer Security (TLS) 1.2 in order to continue providing privacy and data integrity. In preparation for this update please make sure you are using operating systems and browsers that support TLS 1.2. Please see the compatibility list below.

If you are using the following, then no changes are needed: Microsoft Edge, Microsoft Internet Explorer Desktop and Mobile v. 11, Firefox 27 and higher, Google Chrome 38 and higher, Mobile Safari v.5 and higher, Microsoft Windows Server 2008 R2 and higher, Microsoft Windows 7, 8.0, 8.1 and 10.

If you are using the following, you will need enable TLS 1.2: Microsoft Internet Explorer Desktop v.9 and v.10.

How to enable TLS 1.2 - From Microsoft IE Desktop browser:

Click on "Tools" (top left of screen) or click (ALT+X)

Click on "Internet Options"

Click on "Advanced"

Scroll down to Security and put a check mark in "Use TLS 1.2"

Microsoft Windows Server 2008 and below, Microsoft XP/Vista and below will no longer be compatible with our online banking services.

Please make these changes as soon as possible to avoid disruption to your online banking service. If you have any additional questions please contact us at 352-669-2121.
